

J. Thomas Farrar | Curriculum Vitae

Woods Hole Oceanographic Institution
Associate Scientist - Physical Oceanography Department

📱 +1 (508) 524 0501 • 📞 +1 (508) 289 2691 • 📩 jfarrar@whoi.edu

🌐 www2.whoi.edu/staff/jfarrar/

Mail Stop #29, Clark 212A, Woods Hole, MA 02534 USA

Research Interests

Atmosphere-ocean exchange of heat and freshwater; dynamics and thermodynamics of the upper ocean; tropical dynamics and equatorial waves; oceanic internal waves and eddies; satellite oceanography; ocean observing and instrumentation.

These interests are pursued using in situ observations, satellite observations, and numerical models to test hypotheses and test or formulate simplified physical models to help us understand ocean dynamics, air-sea interaction, and the earth system.

Education

Ph.D.: Physical Oceanography, Massachusetts Institute of Technology-Woods Hole Oceanographic Institution, 2007

S.M.: Physical Oceanography, Massachusetts Institute of Technology, 2003

B.S.: Physics, University of Oklahoma, 2000

B.A.: Philosophy, University of Oklahoma, 2000

Positions Held

2016-present: Associate Scientist with tenure Woods Hole Oceanographic Institution, Physical Oceanography Department.

2012-2016: Associate Scientist without tenure Woods Hole Oceanographic Institution, Physical Oceanography Department.

2008-2012: Assistant Scientist Woods Hole Oceanographic Institution, Physical Oceanography Department.

2007-2008: Postdoctoral Investigator Woods Hole Oceanographic Institution, Physical Oceanography Department.

2004-2007: Graduate Research Assistant Woods Hole Oceanographic Institution, Physical Oceanography Department.

2003-2004: Research Associate I Woods Hole Oceanographic Institution, Physical Oceanography Department.

2000-2003: Graduate Research Assistant Woods Hole Oceanographic Institution, Physical Oceanography Department.

1998-2000: Student Laboratory Assistant Magneto-optical trapping laboratory (atomic-molecular physics),

Physics Department, University of Oklahoma.

Selected Academic and Professional Honors

2018: Principal Investigator of the Sub-Mesoscale Ocean Dynamics Experiment (S-MODE), a \$30M NASA Earth Venture Suborbital Mission with 21 co-investigators, remote sensing measurements from three aircraft, and three research cruises that will take place in 2020-2021.

2017: American Meteorological Society Nicholas P. Fofonoff Award in recognition of research achievement in physical oceanography, for “insightful analysis of observations yielding a deeper understanding of tropical and upper ocean dynamics, and for generous collaboration and leadership in major field experiments”

2012: Editors' Citation for Excellence in Refereeing, *Journal of Geophysical Research-Oceans*

2006: Outstanding Student Paper Award, AGU Ocean Sciences meeting

2000-2001: MIT Presidential Fellowship

2000: Most Outstanding Physics Student, University of Oklahoma

1999: Phi Beta Kappa

1999: Golden Key National Honor Society

1998: Sigma Pi Sigma (physics honor society)

1994: National Merit Scholar

Service

- Co-chair, TPOS-2020 (Tropical Pacific Observing System) Task Team on Planetary Boundary Layers, 2015-present
- Co-chair, SPURS-2 (Salinity Processes in the Upper-ocean Regional Study) Science Steering Committee, 2015-present
- Co-chair, US CLIVAR Process Study and Model Improvement Panel, 2013-2014
- Organizer, SWOT Science Campaign Workshop, October 2018.
- Organizer, Doppler Scatterometer Field Campaign Workshop, August 2017.
- Organizer, SPURS-2 (Salinity Processes in the Upper-ocean Regional Study) Planning Workshop, April 2014.
- Subject Matter Expert, NASA Surface Water Ocean Topography Algorithm Development Team, 2018-present
- Member of Organizing Committee for the US CLIVAR Workshop on Surface Currents in the Coupled Ocean-Atmosphere System, February 2020
- Member of International CLIVAR Atlantic Implementation Panel, 2011-2015

- Member of US CLIVAR Process Study and Model Improvement Panel, 2012-2016
- Member of TPOS-2020 (Tropical Pacific Observing System) Scientific Steering Committee, 2014-present
- Member of NASA Surface Water Ocean Topography Algorithm Development Team steering committee, 2014-2016
- Member of Science Committee of the European Space Agency's Ocean Salinity Science and Salinity Remote Sensing Workshop, 2014
- Member of ASIRI (Air-Sea Interaction Regional Initiative) Steering Committee, 2012-2017
- Member of NASA Ocean Surface Topography Science Team, 2012-present
- Member of NASA Ocean Vector Wind Science Team, 2010-2018
- Member of MISO-BoB (Monsoon Intraseasonal Oscillations in the Bay of Bengal) Steering Committee, 2016-present
- Member of SPURS (Salinity Processes in the Upper-ocean Regional Study) Science Steering Committee, 2011-2015
- Member of WHOI Search Committee for Physical Oceanography Department Chair, 2010
- Member of WHOI Search Committee for Vice President of Marine Operations, 2008-2009
- Member of WHOI Diversity Committee, 2008-2010
- Member of WHOI's Gender Equity Program Advisory Committee, 2004-2006
- Secretary, WHOI Postdoctoral Association, elected representative of the physical oceanography department, 2007-2008
- President, Sigma Pi Sigma (physics honor society), U. Oklahoma Chapter, 1999-2000
- Reviewer for *Science*, *Geophysical Research Letters*, *Journal of Physical Oceanography*, *Journal of Geophysical Research*, *Ocean Science*, *Journal of Atmospheric and Oceanic Technology*, *Climate Dynamics*, *Journal of Climate*, *Dynamics of Atmospheres and Oceans*, *Monthly Weather Review*, *Deep Sea Research*, *Journal of Earth System Science*, *Weather and Forecasting*, *Oceanologia*, *Atmospheric Science Letters*, *Ocean Dynamics*, *Journal of Operational Oceanography*, *Remote Sensing of Environment*, *Oceanography*, *Scientific Reports*, *Journal of Atmospheric Sciences*, *Marine Technology Society Journal*, *Proceedings of the National Academy of Sciences*, *PLOS One*, and *Journal of Climate*.
- Proposal reviewer for US National Science Foundation, UK Natural Environment Research Council, NASA
- Panel reviewer for National Science Foundation (2010) and National Oceanic and Atmospheric Administration (2010)

Educational Activities

Thesis committee member for: Ping Zhai (MIT-WHOI, S.M. awarded 2011), Ping Zhai (MIT-WHOI, Ph.D. awarded 2014), Sudip Majumder (U. Mass., Ph.D. awarded 2014), Neeti Neeti (Clark Univ., Ph.D. awarded 2012), Sophia Merrifield (MIT-WHOI, Ph.D. awarded 2016), Julius Busecke (Columbia University; Ph.D. Awarded 2017), Gualtiero Spiro Jaeger (MIT-WHOI, Ph.D. awarded 2019), Samuel Levang (MIT-WHOI, Ph.D. awarded 2019), Julie Jakoboski (MIT-WHOI, Ph.D. awarded 2019).

Ph.D. advisor for: Alec Bogdanoff (MIT-WHOI, Ph.D. awarded 2017; co-advised with Carol Anne Clayton).

Postdoctoral advisor for: Shannon Davis (2015-2016), Viviane Menezes (2016-2017), Michael Schlundt (2017-2019), Uriel Zajaczkowski (2017-2019), Cesar Rocha (2018-present), Seth Zippel (2019-present).

Teaching: MIT graduate class 12.805, *Data Analysis in Physical Oceanography* (2016, 2017, 2019; co-taught with Jake Gebbie). Guest lecturer for MIT graduate class 12.808 *Introduction to Physical Oceanography* on measurement of surface meteorology and air-sea fluxes at sea (2006-2014).

Member: MIT-WHOI Joint Committee for Physical Oceanography (a graduate program oversight committee concerned with curriculum, required courses, general exam structure, and student welfare), 2011-2015.

Member: WHOI Joint Program Admissions Committee, 2010-2013.

Summer advisor: WHOI Geophysical Fluid Dynamics Program Fellow Andrew Wells (2007, co-advised with Claudia Cenedese); visiting graduate student John Prytherch (2010, co-advised with Bob Weller); WHOI summer students (Erica Rosenblum, Sourajit Das, Weiguang Roger Wu); MIT-WHOI Joint Program student Deepak Cherian (2012).

Lectures & Seminars

September 2006: Massachusetts Institute of Technology, Oceanography and Climate Sack Lunch Seminar. *Oceanic mesoscale variability and atmospheric convection on 10°N in the eastern Pacific*.

February 2007 (Invited): National Data Buoy Center. *Buoys and wave-measurement requirements of the WHOI Upper Ocean Processes Group*.

April 2007 (Invited): Lamont-Doherty Earth Observatory, Ocean and Climate Physics Seminar. *Oceanic mesoscale variability and atmospheric convection on 10°N in the eastern Pacific*.

June 2007 (Invited): Geophysical Fluid Dynamics Program Staff Lecture, Woods Hole Oceanographic Institution. *Modulation of the cool skin of the ocean by internal waves* (with C.J. Zappa and C. Cenedese).

July 2007 (Invited): Geophysical Fluid Dynamics Program, Mini-Symposium on “Ocean Bottom and Surface Boundary Layers”, Woods Hole Oceanographic Institution. *The ocean’s diurnal boundary layer: observations and models*.

October 2007: University of Oklahoma, Department of Meteorology, Seminar series in convection and numerical weather prediction. *Oceanic mesoscale variability and atmospheric convection on 10°N in the eastern Pacific*.

October 2007 (Invited): University of Oklahoma, Department of Physics Colloquium Series. *Planetary-scale equatorial waves in the Pacific Ocean and mathematical analogy to the quantum simple harmonic oscillator*.

November 2007: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *Observations*

of equatorial waves in the Pacific Ocean: Dispersion characteristics, meridional sea-level structures, and a previously unobserved wave mode.

November 2007 (Invited): Oregon State University, Physical Oceanography Seminar. *Observations of the dispersion characteristics and meridional sea-level structure of equatorial waves in the Pacific Ocean.*

November 2007: Oregon State University, Joint Physical Oceanography and Atmospheric Sciences Seminar. *Oceanic mesoscale variability and atmospheric convection on 10°N in the eastern Pacific.*

April 2008: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *Equatorial and tropical instability waves: synthesis and new observations.*

June 2008: Oregon State University, Physical Oceanography Seminar. *Equatorial and tropical instability waves: synthesis and new observations.*

September 2009: Texas A&M University, Department of Atmospheric Sciences Seminar. *Oceanic mesoscale variability and atmospheric convection on 10°N in the eastern Pacific.*

September 2009 (Invited): Texas A&M University, Department of Oceanography Seminar. *Observations of the dispersion relation and meridional structure of equatorial waves and tropical instability waves.*

October 2009 (Invited): Woods Hole Oceanographic Institution, Applied Ocean Physics and Engineering Coastal Ocean Fluid Dynamics Laboratory Seminar. *Air-sea exchange in the Red Sea and the role of coastal processes.*

December 2009 (Invited): University of Rhode Island, Graduate School of Oceanography Seminar. *Observations of the dispersion relation and meridional structure of equatorial waves and tropical instability waves.*

February 2011 (Invited): Rensselaer Polytechnic Institute, Mathematics Colloquium. *Observations of planetary-scale ocean waves in the equatorial waveguide.*

April 2011 (Invited): University of Massachusetts, Dartmouth, School for Marine Science and Technology. *New observations of equatorial waves and tropical instability waves in the Pacific Ocean.*

June 2011: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *On the spectrum of equatorial inertia-gravity waves and the significance of zero group velocity* (co-delivered with Ted Durland).

April 2012: Oregon State University, Physical Oceanography Seminar. *Sea-level variability in the tropical Pacific: from inertia-gravity waves to Rossby waves.*

April 2012: University of South Florida, Oceanography Seminar. *New observations of equatorial waves and tropical instability waves.*

May 2012: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *Sea-level variability in the tropical Pacific: from inertia-gravity waves to Rossby waves.*

April 2013 (Invited): Lamont-Doherty Earth Observatory, Ocean and Climate Physics Seminar. *Sea-level variability in the tropical Pacific: from inertia-gravity waves to Rossby waves.*

March 2016: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *Long-range teleconnections in the ocean eddy field.*

July 2016 (Invited): National Institute of Ocean Technology, Chennai, India. *Mooring measurements of air-sea interaction at WHOI.*

July 2016 (Invited lectures): International Training Course on Emerging trends in Ocean Observations and Ocean Data Analysis (58 students); Hyderabad, India, Indian National Centre for Ocean Information Services. *Fourier analysis, spectral analysis, and filtering.*

May 2017: Woods Hole Oceanographic Institution, Physical Oceanography Seminar. *Surface velocity measurements from air and space (Doppler scatterometry).*

October 2018: Cornell University, Atmospheric Sciences Seminar. *Ocean-atmosphere interaction and ocean dynamics using measurements from water, air, and space.*

February 2019 (Invited): New York University Courant Institute of Mathematical Sciences. *Long-range Rossby wave radiation from an unstable ocean current.*

March 2019: Cornell University, Atmospheric Sciences Seminar. *Long-range Rossby wave radiation from an unstable ocean current.*

Fieldwork Experience

2019: MISO-BoB cruise, RV *Sally Ride*, Chennai, Indai to Chennai, India (Bay of Bengal). Led WHOI drogued surface buoy effort. Chief Scientist: Emily Shroyer.

2017: IRENE cruise, BO *SOCIB*, Palma, Mallorca to Palma, Mallorca. Led WHOI drogued surface buoy effort and Underway CTD sampling. Chief Scientist: Simon Ruiz.

2016: SPURS-2 deployment cruise in-port work; Honolulu. Worked with group members to assemble surface mooring buoy, prepare instruments and equipment, and load ship.

2012: SPURS deployment cruise, RV *Knorr*; Woods Hole to Azores. Led WHOI mooring effort and Underway CTD sampling. Chief Scientist: Ray Schmitt.

2010: Chief Scientist for King Abdullah University for Science and Technology mooring recovery cruise, SETE3 (tug) and SETE30 (barge); Durrat, Saudi Arabia to Durrat, Saudi Arabia (Red Sea).

2009: Chief Scientist for King Abdullah University for Science and Technology mooring recovery/redeployment cruise, SETE3 (tug) and SETE30 (barge); Durrat, Saudi Arabia to Durrat, Saudi Arabia (Red Sea).

2008: Chief Scientist for King Abdullah University for Science and Technology mooring deployment cruise, RV *Oceanus*; Jeddah, Saudi Arabia to Jeddah, Saudi Arabia.

2008: Northern Tropical Atlantic Station mooring turnaround cruise, RV *Oceanus*; Woods Hole, MA to Barbados. Chief Scientist: Al Plueddemann.

2007: CLIMODE and wave-measurement test mooring recovery cruise, RV *Oceanus* (Co-PI with Robert Weller). Participation in planning and execution of a dragging operation to retrieve remnants of a mooring that had previously failed in the Gulf Stream. Chief scientist: Robert Weller.

2007: Chief Scientist for Wave-measurement Test Mooring deployment cruise, RV *Oceanus*; coastal waters south of Martha's Vineyard, MA.

2003: Chief Scientist for 3 of 5 cruise legs of Coupled Boundary Layers and Air-Sea Transfer Experiment, Low Winds, FV *Nobska* (PI, Robert Weller).

2001: Salt Finger Tracer Release Experiment, RV *Oceanus*; Barbados to Barbados. SF₆ tracer release and microstructure sampling, Chief Scientist: Raymond Schmitt.
