Heather Kim, PhD

Assistant Scientist II (tenure-track)
James E. and Barbara V. Moltz Early Career Science Fellow
Department of Marine Chemistry and Geochemistry
Woods Hole Oceanographic Institution
MS 25, 266 Woods Hole Road, Woods Hole, MA 02543
hkim@whoi.edu | (508) 289-3444 | https://kimlab.whoi.edu/

EDUCATION

Ph.D., Earth and Environmental Sciences, Columbia University, New York, NY 2013–2017
Advisor: Prof. Hugh Ducklow

M.S., Oceanography, University of Rhode Island, Kingston, RI 2010–2012
Advisor: Prof. Susanne Menden-Deuer

B.S., Earth and Environmental Sciences, Seoul National University, Seoul, South Korea 2007–2010

PROFESSIONAL EXPERIENCE

Assistant Scientist II, Woods Hole Oceanographic Institution, Woods Hole, MA 2024–Present
Assistant Scientist I, Woods Hole Oceanographic Institution, Woods Hole, MA 2019–2024
Postdoctoral Researcher, University of Virginia 2017–2019
Advisor: Prof. Scott Doney
Postdoctoral Researcher, Lamont-Doherty Earth Observatory, Columbia University, NY 2017
Advisor: Prof. Hugh Ducklow

AWARDS AND FELLOWSHIPS

James E. and Barbara V. Moltz Early Career Science Fellow, WHOI 2025
Faculty Affiliate, NSF Center for Chemical Currencies of a Microbial Planet 2024–2026
Faculty Fellow, NSF Center for Chemical Currencies of a Microbial Planet 2022–2024
Antarctica Service Medal, United States Antarctic Program 2016
Summer Course Participant, NSF Center for Microbial Oceanography: Research and Education 2014
Dean's Fellow, Columbia University, Graduate School of Arts and Sciences 2013
Travel Award, NOAA 2012

RESEARCH INTERESTS

Biogeochemical modeling; Microbial ecology; Marine carbon dioxide removal; Machine learning

PUBLICATIONS IN PEER-REVIEWED JOURNALS

Total published or under review = 32, First, corresponding or senior author = 18

FUNDING AWARDS

Funded – External

Co-PI and Executive Committee, NSF OCE #2019589, $624,999 (Kim portion) 2026–2031
STC: Center for Chemical Currencies of a Microbial Planet, Phase 2 renewal

Lead and Sole PI, NSF OPP #2332062, $477,793 2024–2027
Projecting the biological carbon pump and climate feedback in the rapidly changing West Antarctic Peninsula: A hybrid modeling study

Lead PI, NSF OCE #2318940, $533,586 (Kim portion) 2024–2027
Collaborative research: Understanding environmental and ecological controls on carbon export and flux attenuation near Bermuda; Collaborative with Amy Maas

Co-PI, NASA IDS #184860194, $266,761 (subaward to WHOI for Kim portion) 2024–2028
Exploring the role of episodic events in sea ice, phytoplankton community composition, and air-sea carbon fluxes West of the Antarctic Peninsula through field and satellite measurements; Collaborative with Heidi Dierssen (lead PI), David Munro, Oscar Schofield, Sharon Stammerjohn, and Jessie Turner

Faculty Affiliate, NSF OCE #2019589, $122,450 (Kim portion) 2024–2026
STC: Center for Chemical Currencies of a Microbial Planet

Co-PI, Carbon to Sea Initiative, $626,093 (Kim portion) 2023–2026
A seagoing field trial program for ocean alkalinity enhancement on the Northeast Shelf of the United States; Collaborative with Adam Subhas (lead PI), Jennie Rheuban, Ke Chen, Anna Michel, Zhaohui Aleck Wang, and Dan McCorkle

Faculty Fellow, NSF OCE #2019589, $103,000 (Kim portion) 2022–2024
STC: Center for Chemical Currencies of a Microbial Planet

Funded – Internal

Lead PI, Ocean Vital Signs Network (OVSN), $253,798 (total to WHOI PIs) 2026–2028
An observation-based calcification benchmark for OVSN-Darwin in the Northwest Atlantic; Collaborative with Ke Chen and Adam Subhas

Lead and Sole PI, Independent Research and Development, $64,539 2023
Modeling climate solutions: Ocean alkalinity enhancement

Lead PI, Independent Study Award, $64,721 (Kim portion) 2021–2023
Toward a better prediction of carbon budgets in the ocean's twilight zone: Regional and global modeling approaches; Collaborative with Ivan Lima

Lead and Sole PI, Independent Research and Development, $71,590 2022
Development and evaluation of a gene-centric model to predict multiomic and metabolite observations

Lead and Sole PI, Independent Research and Development, $68,412 2021
Predicting coupled ice-ocean-biogeochemical interactions along the warming West Antarctic Peninsula

Lead and Sole PI, Independent Research and Development, $62,956 2020
Quantifying microbial control of the global oceanic carbon sink

Pending

Lead PI, Google Carbon Removal and Superpollutant Elimination R&D Awards, $399,916 2027–2028
Scale down to scale up: Connecting OAE deployment dynamics to regional CDR capacity; Collaborative with Ke Chen

Co-PI, NSF OPP, $403,206 (Kim portion) 2027–2029
Collaborative Research: A matter of time: establishing and modeling the phenology of microbial structure and carbon cycling in an Arctic fjord; Collaborative with John Paul Balmonte (lead PI)

INVITED LECTURES, PRESENTATIONS, AND ABSTRACTS

2027 (Scheduled for March 30): Northeastern University, Department of Marine and Environmental Sciences, Nahant, MA.

2026 Boston College, Department of Earth and Environmental Sciences, Chestnut Hill, MA. Modeling microbial controls on ocean carbon cycling.

2026 OAE Model Skill Assessment Workshop, Munich, Germany (virtual). Modeling the LOC-NESS OAE field trials: Site selection, model skill, and sources of CDR uncertainty.

2023 Department of Energy Advanced Research Projects Agency–Energy (ARPA-E), Marine Carbon Sensing Workshop, Washington D.C. Sensing exports of anthropogenic carbon through ocean observation and modeling.

2022 NOAA Geophysical Fluid Dynamics Laboratory, Princeton, NJ (virtual). Modeling marine heterotrophic bacteria: Implications for the ocean carbon cycle under climate change.

2022 University of Rhode Island, Graduate School of Oceanography, Narragansett, RI (virtual). Modeling marine heterotrophic bacteria: Implications for the ocean carbon cycle under climate change.

2022 Massachusetts Institute of Technology, Atmospheres, Oceans, and Climate, Cambridge, MA. Ocean carbon cycle in a changing climate.

2022 Scripps Institution of Oceanography, Scripps Polar Center, UC San Diego (virtual). Modeling the role of marine heterotrophic bacteria in the ocean's biological carbon pump in a changing climate.

2022 University of Virginia, TransUniversity Microbiome Initiative, Charlottesville, VA (virtual). Modeling the role of marine heterotrophic bacteria in the ocean's biological carbon pump in a changing climate.

2022 Microbiome Centers Consortium Seminar Series (virtual). Modeling the role of marine heterotrophic bacteria in the ocean's biological carbon pump in a changing climate.

2021 Scripps Institution of Oceanography, UC San Diego, San Diego, CA (virtual). Microbial traits informed modeling of polar marine ecosystem functions.

2020 Woods Hole Oceanographic Institution, Department of Biology, Woods Hole, MA (virtual). Microbial diversity-informed modeling of polar marine ecosystem functions.

2019 Seoul National University, School of Earth and Environmental Sciences, Seoul, South Korea. Microbial control of ocean carbon and biogeochemical cycling in a changing climate.

2019 Korea Polar Research Institute, Incheon, South Korea. Microbial control of ocean carbon and biogeochemical cycling in a changing polar ocean: Insights from observations and modeling of the coastal West Antarctic Peninsula.

2019 Chungnam National University, Department of Ocean Environmental Sciences, Daejeon, South Korea. Data assimilative modeling of an Antarctic coastal ecosystem: Impacts of microbial food web interactions on upper-ocean carbon cycling in a changing climate.

2019 University of Delaware, School of Marine Science and Policy, Newark, DE. Modeling the impacts of marine microbial interactions on upper-ocean carbon and biogeochemical cycling in a changing climate.

2019 Woods Hole Oceanographic Institution, Department of Marine Chemistry and Geochemistry, Woods Hole, MA. Quantifying the impacts of marine microbial interactions on upper-ocean carbon and biogeochemical cycling in a changing climate.

2017 University of Virginia, Department of Environmental Sciences, Charlottesville, VA. Microbial interactions in coupled climate-biogeochemical systems: Antarctica and Bermuda.

2016 Princeton University, Atmospheric and Oceanic Sciences, Princeton, NJ. Palmer LTER: Revealing ecological interactions in the coupled climate-biogeochemical system based on observations and data-driven modeling.

2015 Seoul National University, School of Earth and Environmental Sciences, Seoul, South Korea. Climate forcing of bloom and nutrient dynamics at Palmer Station, Antarctica.

SUPERVISION

Postdoctoral Researchers

Elizabeth Connors, Postdoctoral Investigator	2025–Present
Shun Mao, Postdoctoral Investigator	2024–2026
Emelia Chamberlain, NSF Postdoctoral Fellow	2024–2026
Yiming Guo, Postdoctoral Investigator	2024–2025
Onur Karakuş, Postdoctoral Investigator	2023–2025
Jens Terhaar, Postdoctoral Scholar	2022–2023
Ashley Dinauer, NSF Postdoctoral Fellow	2021–2022

Students

Konstantin Scholey, Summer Student Fellow (University of Edinburgh, UK)	2026
Leo Orbanes, Volunteer (Belmont High School)	2026
Linus Vogt, Guest Student (Sorbonne University, France)	2023
Gus McGuire, Falmouth Academy High School Intern	2022
Rhegan Thomason, NSF C-CoMP Bridge-to-PhD Fellow	2022–2024
Annabella Amato, Summer Student Fellow (UC Los Angeles)	2022
Elizabeth Connors, Guest Student (Scripps Institution of Oceanography, UC San Diego)	2022
Emelia Chamberlain, Guest Student (Scripps Institution of Oceanography, UC San Diego)	2022
Oreoluwa Solanke, Summer Student Fellow (Columbia University)	2020
Kira Baugh, Undergraduate Researcher (University of Virginia)	2018

Technical Staff

Theodore Calianos, Research Assistant	2024–2026
Ivan Lima, Guest Investigator	2022–2023

PARTICIPATION IN EDUCATION PROGRAM

MIT-WHOI Joint Program

Admissions Advisory Committee (ACC) Member for Chemical Oceanography	2026–Present
Co-instructor (with David Nicholson), MIT-WHOI 12.747 Modeling, Data Analysis, and Numerical Techniques for Geochemistry	2025, 2020
Co-instructor (with Adam Subhas, Tom Bell, Ken Buesseler, Scott Lindell, and Zhaohui Aleck Wang) MIT-WHOI 12.757 Geodynamics Seminar: Climate Solutions	2022
PhD Thesis Defense Chair for Ellen Park (advisor: David Nicholson)	2025
General Exam Paper Reviewer for Sophie Kuhl (advisor: Zhaohui Aleck Wang)	2025
Thesis Committee Member of Shavonna Bent (advisor: Benjamin Van Mooy)	2021–2025
Thesis Committee Member of Noah Germolus (advisor: Elizabeth Kujawinski)	2020–2024
PhD Thesis Defense Chair for Rebecca Chmiel (advisor: Mak Saito)	2022
PhD Thesis Proposal Defense Chair for Ellen Park (advisor: David Nicholson)	2022
General Exam Committee	2022
First Year Student Academic Advising Committee	2021–2022

Columbia University

Teaching Assistant, UN1030 Oceanography	2016
Teaching Assistant, UN2100 Earth's Environmental System: Climate System	2015–2016
Guest Instructor, Double Discovery Center	2015

University of Rhode Island
Teaching Assistant, OCG301 General Oceanography 2012
Outreach Scientist, Office of Marine Programs 2010–2012

PROFESSIONAL ACTIVITIES

International Scientific Service
Associate Member, Scientific Committee on Oceanic Research (SCOR) Working Group, Persistence and Stability of oceanic dissolved organic matter: an Integrative Synthesis of Theories (PERSIST) (selected for support) 2026–Present

National and Federal Scientific Service
Invited Author, Physical Systems Chapter, Sixth National Climate Assessment (NCA6), U.S. Global Change Research Program – Canceled under current administration; contributed to AGU/AMS Perspective with chapter team 2024–2026

Editorial and Advisory Board
Associate Editor, Geoscientific Model Development 2022–Present
Advisor, Ocean Visions Launchpad: $100M XPRIZE Carbon Removal Competition 2022–2023

Service at Academic Conferences
Organizer, C-CoMP Modeling Workshop 2026
Session Lead-chair, Modeling Approaches for Marine Carbon Dioxide Removal (mCDR), Ocean Sciences Meeting, Glasgow, Scotland 2026
Planning Committee, BioGeoSCAPES Modeling Workshop, Woods Hole, MA 2025
Session Co-chair, Modeling Approaches for Ocean-Based Carbon Dioxide Removal Research, Ocean Sciences Meeting, New Orleans, LA 2024
Session Co-chair, Modeling Approaches for Ocean-Based Carbon Dioxide Removal Research, AGU Fall Meeting, San Francisco, CA 2023
Presentation Evaluator, Ocean Sciences Meeting (virtual) 2022
Presentation Evaluator, AGU Fall Meeting (virtual) 2020
Presentation Evaluator, Ocean Sciences Meeting, San Diego, CA 2020
Session Co-chair, Changing Biogeochemistry and Ecology Across Polar Aquatic Systems in the 21st Century, Aquatic Sciences Meeting, San Juan, PR 2019
Mentor, ASLO Multicultural Program, Aquatic Sciences Meeting, San Juan, PR 2019
Presentation Evaluator, Ocean Sciences Meeting, Portland, OR 2018
Co-organizer, Postdoctoral Symposium, University of Virginia, Charlottesville, VA 2018
Presentation Evaluator, LTER All Scientists Meeting, Estes Park, CO 2015

External Meetings and Workshops
Panelist, Department of Energy ARPA-E, Marine Carbon Sensing Workshop, Washington D.C. 2023
Panelist, Schmidt Futures Ocean Biogeochemistry Strategic Planning Workshop, New York, NY 2022
Panelist, Open Ocean Blue Carbon Workshop, Environmental Defense Fund, Boston, MA 2021
Panelist, Polar-ICE Student Polar Research Symposium, Rutgers University, New Brunswick, NJ 2017
Panelist, Antarctic Edge: 80 degrees South, Columbia University Alumni Associations STEM Day 2016

WHOI Institutional Service
Postdoctoral Mentoring Committee 2025–Present
Information Services Advisory Committee 2022–Present
Women's Committee 2022–2023
Department of Marine Chemistry and Geochemistry Faculty Search Committee 2022
Department of Marine Chemistry and Geochemistry Seminar Organizer 2020–2021

Manuscript Review
Remote Sensing of Environment; Journal of Experimental Marine Biology and Ecology; Geoscientific Model Development; Biogeosciences; Journal of Geophysical Research: Biogeosciences; Scientific Reports; Limnology and Oceanography; Ecosystems; Global Change Biology; Terrestrial, Atmospheric and Oceanic Sciences; Philosophical Transactions of the Royal Society A; PLoS ONE; Frontiers in

Marine Science; Aquatic Microbial Ecology; Global Biogeochemical Cycles; Proceedings of the National Academy of Sciences

Proposal and Panel Review

CRUISE AND FIELDWORK PARTICIPATION

R/V Tioga, LOC-NESS OAE field trial, Wilkinson Basin, Gulf of Maine	2025
ARSV Laurence M. Gould, Palmer LTER research cruise, West Antarctic Peninsula	2015–2016
R/V Kilo Moana, C-MORE research cruise, North Pacific	2014
R/V Endeavor, North Atlantic Spring Bloom research cruise, Gulf of Maine	2011
R/V Tamyang, Shipboard Training course, East/Japan Sea	2010

OUTREACH AND OTHER ACTIVITIES

Volunteer, The WBUR Festival, Boston, MA	2026
Outreach Host, Quincy College Student Visit, Woods Hole, MA	2026
Panelist, New York Signature Event, University Club of New York, New York, NY	2022
Vice President, Columbia University Korean-American Scientists and Engineers Association	2016–2017
Environmental Consultant, RPS-ASA, South Kingstown, RI	2013

Volunteer, Environmental Protection Agency, Narragansett, RI 2012
Volunteer, Science Fair, America's Cup World Series, Newport, RI 2012
Volunteer, Science Saturday, University of Rhode Island, Narragansett, RI 2011
